[www.jewettsix.com](http://www.jewettsix.com)

Hello fellow *Jewett Six* automobile owner,

The Registry was established in 2006 in order to bring together current *Jewett Six* owners so that they would have access to historical information, factory and technical information, as well as available parts and cars. If you own a car and care to participate, please join us.

**Please fill out and return the following form **along with a photograph of your car** to the address above by Postal mail.**

- **There is no fee associated with this registration.**

We will acknowledge receipt of these and keep you informed through this site and by email.

Of first importance is the registry of all existing *Jewett Six* automobiles world wide, secondly the owners of these cars. If you choose not have your name listed with the car(s) you own please initial that on the form. Your name will then be known **ONLY** to the registry and **NOT** made public or on this web site. If some other person or a Registered Member wishes to contact you the Registry will ALWAYS ask your permission before releasing that information.

Thank you,

Doug Thamert,  
Registrar
